Performance Overview

Mastery Scores by Track

Executive Summary

This report summarizes your Japanese language learning progress across the ExploraKodo Triple-Track Coaching system. Your performance is evaluated across three tracks (Care-giving, Academic, Food/Tech) and three skill categories (Vocabulary, Tone/Honorifics, Contextual Logic).

Track Performance Summary

| Track | Overall Score | Status |
|-------------|---------------|-------------------|
| Food/Tech | 0.0% | Needs Improvement |
| Academic | 0.0% | Needs Improvement |
| Care-giving | 0.0% | Needs Improvement |

Detailed Performance by Track

Food/Tech Track

| Skill Category | Mastery Score | Level |
|------------------|---------------|----------|
| Vocabulary | 0.0% | Beginner |
| Tone/Honorifics | 0.0% | Beginner |
| Contextual Logic | 0.0% | Beginner |

Sensei's Assessment:

The Food/Tech track demonstrates a clear opportunity for growth across all measured areas of performance: Vocabulary, Tone/Honorifics, and Contextual Logic. While the current scores indicate foundational development is needed, targeted training in industry-specific terminology, nuanced communication strategies for conveying respect, and logical reasoning skills will significantly enhance performance. Focus on building a robust vocabulary base and practicing scenario-based responses to develop more contextually appropriate and effective communication. Consistent effort and focused learning in these key areas will lead to demonstrable improvement.

Academic Track

| Skill Category | Mastery Score | Level |
|------------------|---------------|----------|
| Vocabulary | 0.0% | Beginner |
| Tone/Honorifics | 0.0% | Beginner |
| Contextual Logic | 0.0% | Beginner |

Sensei's Assessment:

The current performance in the Academic track reveals a foundational area for growth. While proficiency in Vocabulary, Tone/Honorifics, and Contextual Logic are currently at 0%, this presents a significant opportunity for focused development. Concentrating on targeted practice exercises and immersive learning experiences, particularly those emphasizing reading comprehension and logical reasoning, will be crucial for building a strong academic skillset. We are confident that with dedicated effort and appropriate resources, substantial progress can be achieved in these areas.

Care-giving Track

| Skill Category | Mastery Score | Level |
|------------------|---------------|----------|
| Vocabulary | 0.0% | Beginner |
| Tone/Honorifics | 0.0% | Beginner |
| Contextual Logic | 0.0% | Beginner |

Sensei's Assessment:

While the initial scores in Vocabulary, Tone/Honorifics, and Contextual Logic are currently at 0.0%, this presents a valuable opportunity for significant growth in the Care-giving track. Targeted training focusing on expanding relevant vocabulary, mastering appropriate tone and honorific usage, and enhancing contextual reasoning skills is highly recommended. We are confident that focused effort in these areas will lead to demonstrable improvements and ultimately strengthen performance in crucial care-giving interactions.

Recommendations

Areas for Improvement:

1. **Food/Tech - Vocabulary:** 0.0% (Target: 70%+)

Recommendation: Focus on Food/Tech track lessons and practice vocabulary.

2. **Food/Tech - Tone/Honorifics:** 0.0% (Target: 70%+)

Recommendation: Focus on Food/Tech track lessons and practice tone/honorifics.

3. **Food/Tech - Contextual Logic:** 0.0% (Target: 70%+)

Recommendation: Focus on Food/Tech track lessons and practice contextual logic.

Career & Visa Outlook

Food/Tech Track

Career Readiness:

33% (JLPT N5)

Visa Requirements:

N4/N3 combined with AI/ML skills contributes points toward the 'Highly Skilled Professional' visa category.

Career Outlook:

Growing 'Startup Visa' opportunities for foreign entrepreneurs in the tech sector.

Academic Track

Career Readiness:

33% (JLPT N5)

Visa Requirements:

N2/N1 targets for MEXT scholarships and entrance into top-tier Japanese Universities.

Career Outlook:

Graduates in Japan have access to the 'Designated Activities' visa for job hunting.

Care-giving Track

Career Readiness:

33% (JLPT N5)

Visa Requirements:

N4 is the minimum requirement for the 'Specified Skilled Worker (i)' visa, while N3 significantly increases salary potential in elderly care facilities.

Career Outlook:

High demand for caregivers in Japan with specialized 'Kaigo' vocabulary.
