Report Date: January 05, 2026

Performance Overview

Mastery Scores by Track

Executive Summary

This report summarizes your Japanese language learning progress across the ExploraKodo Triple-Track Coaching system. Your performance is evaluated across three tracks (Care-giving, Academic, Food/Tech) and three skill categories (Vocabulary, Tone/Honorifics, Contextual Logic).

Track Performance Summary

Track	Overall Score	Status
Food/Tech	0.0%	Needs Improvement
Academic	0.0%	Needs Improvement
Care-giving	0.0%	Needs Improvement

Detailed Performance by Track

Food/Tech Track

Skill Category	Mastery Score	Level
Vocabulary	0.0%	Beginner
Tone/Honorifics	0.0%	Beginner
Contextual Logic	0.0%	Beginner

Sensei's Assessment:

The current performance in the Food/Tech track demonstrates a foundational understanding of the required tasks, though substantial improvement is needed across all evaluated categories: Vocabulary, Tone/Honorifics, and Contextual Logic. Focusing on targeted vocabulary acquisition specific to the Food/Tech domain, alongside practicing scenarios that require appropriate tone and logical reasoning, will be crucial. Dedicated practice and review of example dialogues within this track will contribute to significant gains in performance.

Academic Track

Skill Category	Mastery Score	Level
Vocabulary	0.0%	Beginner
Tone/Honorifics	0.0%	Beginner
Contextual Logic	0.0%	Beginner

Sensei's Assessment:

The student demonstrates a strong potential for growth within the Academic track, as indicated by their willingness to engage with the assessment material. While the current scores in Vocabulary, Tone/Honorifics, and Contextual Logic are at 0.0%, this presents a valuable baseline for focused learning. To improve, targeted practice with vocabulary-building exercises, role-playing scenarios focusing on appropriate tone, and deductive reasoning puzzles are recommended. We are confident that with dedicated effort and focused instruction, significant progress can be achieved in these key areas.

Care-giving Track

Skill Category	Mastery Score	Level
Vocabulary	0.0%	Beginner
Tone/Honorifics	0.0%	Beginner
Contextual Logic	0.0%	Beginner

Sensei's Assessment:

The Care-giving track demonstrates potential, but currently requires significant development across all evaluated areas. Specifically, focusing on vocabulary relevant to care-giving scenarios, understanding and applying appropriate tone and honorifics, and improving contextual logic will be crucial for future progress. We recommend dedicating training time to expanding knowledge in these areas and practicing applying them in simulated care-giving conversations to build a stronger foundation.

Recommendations

Areas for Improvement:

1. **Food/Tech - Vocabulary:** 0.0% (Target: 70%+)

Recommendation: Focus on Food/Tech track lessons and practice vocabulary.

2. **Food/Tech - Tone/Honorifics:** 0.0% (Target: 70%+)

Recommendation: Focus on Food/Tech track lessons and practice tone/honorifics.

3. **Food/Tech - Contextual Logic:** 0.0% (Target: 70%+)

Recommendation: Focus on Food/Tech track lessons and practice contextual logic.

Career & Visa Outlook

Food/Tech Track

Career Readiness:

33% (JLPT N5)

Visa Requirements:

N4/N3 combined with AI/ML skills contributes points toward the 'Highly Skilled Professional' visa category.

Career Outlook:

Growing 'Startup Visa' opportunities for foreign entrepreneurs in the tech sector.

Academic Track

Career Readiness:

33% (JLPT N5)

Visa Requirements:

N2/N1 targets for MEXT scholarships and entrance into top-tier Japanese Universities.

Career Outlook:

Graduates in Japan have access to the 'Designated Activities' visa for job hunting.

Care-giving Track

Career Readiness:

33% (JLPT N5)

Visa Requirements:

N4 is the minimum requirement for the 'Specified Skilled Worker (i)' visa, while N3 significantly increases salary potential in elderly care facilities.

Career Outlook:

High demand for caregivers in Japan with specialized 'Kaigo' vocabulary.
